Here at eSwimmers.com, we specialize in 100% polyester swimsuits. These suits are special because they do not react to chlorine or other pool chemicals that eat up spandex. These suits do not fade, nor will they become see through with wear. Lining worn out? Just cut it out and keep wearing the suit if you like. You will get many more hours of wear in the pool! We carry several different manufacturers, and you can see even more suits on our website: [www.eswimmers.com](http://www.eswimmers.com). Call us, or email [nancy1@eswimmers.com](mailto:nancy1@eswimmers.com) with questions.

Sizing: In general, if you have never worn a polyester swimsuit, you will need to go up 1 size from your usual fashion suit. Poly does not have as much stretch as spandex, so you need to go a little bigger. The following chart is a general reference guide. Different companies size differently. See styles for more fitting tips.
